Extraordinary moments.

Momentus platform

CONVENTION AND EXHIBITION CENTER SOFTWARE

Discover why over 85% of the largest convention centers in the world rely on the Momentus platform to improve efficiencies and maximize revenue.

Improve utilization, revenue and operations across your organization.

Trust a solution that is globally recognized as the most powerful, intuitive platform.

Optimize operations with CRM, ERP and exhibitor services designed for convention center operations.

Join the ExCel London, New Zealand International Convention Centre, Orange County Convention Center and several hundred more who rely on us to maximize space utilization, increase revenue and attain high levels of service.

Event organizers streamline their show and exhibitor management with one end-to-end-solution.

Improve communication, visibility and forecasting with our industry-leading convention and exhibition center software.

Drive Revenue Growth
Easily forecast event requirements to ensure you are not under or overutilizing costly resources.

Transform Customer Service
Empower your customers with self-service options — online document sharing, task lists, payments and more.

Maximize Safety and Security
Centralize venue activity in one place and easily share with staff, contractors, police, EMS and more.

Achieve Real-time Availability
Accurate, centralized and real-time venue availability reduces risk of conflicting bookings.

Optimize Operations
CRM, ERP and exhibitor services designed for convention center operations.

Access Business Reports
Quick creation of business intelligence reports to aid with pipeline building and increased number of bookings.

It's time to deploy Momentus.
